Personality

Trait	In a crisis: Calmly solving the puzzle. Known around the office as Meticulous.
Ideal	*"There is no 'good enough' when you're encrypting a signal between the ground and a satellite. There's only correct."* Two decades of getting that right, first in orbit, now in a network.
Bond	Bound to the idea that knowledge only counts once it's handed off, whether that's a classroom full of students, a client reading his report, or a detective who needed an answer.
Flaw	Will proofread a message three times before sending it, then realizes after hitting send that one of the words was actually Portuguese the whole time.

Backstory & Equipment

Backstory

Before The Report Whisperer delivered zero-fire calm under pressure, Jordan built encryption protocols for a national space program and consulted for the Brazilian police on actual crimes. A messy pentest engagement, by comparison, barely registers.
